EPITA grading system

How to check your grades ?

- ✓ On the student portal
- ✓ Grades are uploaded by your professor and can be seen by each student individually on his/her account
- ✓ Final grade can only be viewed once you answer the course survey

Answer the survey for each class :

- ✓ It is mandatory to answer the course survey for each course. Your feedback is important for us in order to enhance the quality of our classes.
- ✓ Only once you have answered a course survey, you will be able to see your final grade for this course

EPITA grading system

Continuous assessment : Professors give different types of assessment all throughout the semester (quizzes, exam, project, presentation, attendance...).

How to resit exams:

- As per the European system and ECTS, even if you get 15 during the resit exam you will not get more than 10.
- Repeat the least grade to get a higher weighted average.
- Resit these exams with the new students next semester.
- The International Programs Department will contact you to provide you with further information (subject to resit, date, exam specific instructions).

If you do not validate two technical modules over a semester with an average of less than 8/20, you will be summoned to a disciplinary council and may be excluded from the program.

Download Microsoft Products

- As an EPITA student, you have access to Ionis Microsoft online application portal where you can download Microsoft applications through the school.
- To access this portal, please follow the following link: <http://onthehub.int.ionis-it.com/> by using your student email as credentials.
- Attention, this should be done on campus when connected to Ionis portal hot spot.

Students' representatives

Students' representatives will be selected per program :

- The role of this student representative is to be the link between the class and International Programs academic team for all academic-related questions regarding your program.
- The student representative is the group's spokesperson who is tasked to join the student representative meetings organized every three weeks.
- The student representative's role is to effectively listen, collate and communicate the views of all the students they represent, taking these views to the student representative meetings and to the academic staff. You can then relay your questions and your views to them regarding all academic matters (classes, exams, events, etc.)
- The student representative is therefore responsible for transmitting the answers from the academic team to their colleagues.

Cooperate with the EPITA Administration

- If you encounter **any problems/difficulties**, whether it be academic or personal, please make sure to **inform us** (email, phone or in person).
